

VECTOR LMS FOR CASINOS

Vector Solutions is the leading SaaS provider of Title 31 & AML (anti-money laundering) compliance training and eLearning solutions for the Gaming Industry. Through its online course library of over 100 titles, a powerful LMS platform, AML certification, and educational conferences, Vector Solutions helps clients meet federal mandates that require casinos to report certain currency transactions to help uncover money laundering activities and other financial crimes. Its easy-to-use LMS allows clients to train, test, and track staff education in one integrated solution.

CASINO SAFETY & PROFESSIONAL GROWTH SUITE

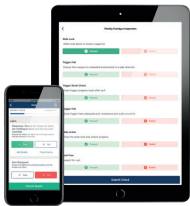

Vector LiveSafe™

LiveSafe empowers Casinos with a communication mobile app to create a culture of safety for employees and customers. Whether it's physical safety and security threats, lone worker risks, sexual harassment and assault incidents, or COVID-19 health concerns, the LiveSafe platform provides all of the necessary tools to keep your organization informed and safe.

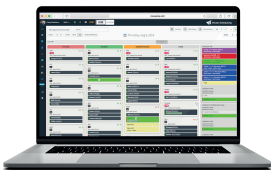

Vector EHS Management™

Vector EHS is an all-in-one safety management solution for casinos. Report an incident the moment it occurs and perform a detailed investigation using detailed incident forms. Populate OSHA forms and maintain records of COVID-19 exposures to ensure safety compliance.

Vector Check It™

Vector Check It allows leadership in each department of a casino to streamline sanitation checks and provides a property-wide overview of the sanitation status throughout the day. From tables, to slot machines, cashier windows, and ticketing kiosks, Vector Check It can help.

Vector Scheduling™

Vector Scheduling is the most comprehensive and dynamic employee scheduling system for the gaming industry. Use the web-based and mobile application to simplify all aspects of your workforce management.
